## SUSTAINABLE AVIATION APAC SYMPOSIUM 2026

30 JUNE – 2 JULY | THE EVERLY, PUTRAJAYA, MALAYSIA

### ABOUT

The MyAERO Sustainable Aviation APAC Symposium 2026 (MSAAS 2026) is a key event in Malaysia that focuses on the future of green and sustainable aviation in the Asia-Pacific region.

The symposium brings together experts, industry leaders, government representatives, and researchers to share ideas, showcase innovations, and discuss solutions for reducing carbon emissions and building a more eco-friendly aviation industry.

### WHY YOU SHOULD ATTEND

- The leading sustainable aviation event in the Asia-Pacific region.
- Solutions to top decision-makers from across the aerospace value chain.
- Understand the latest policies, trends, and innovation driving green aviation.
- High-value collaboration and investment opportunities.
- Network with global aerospace leaders, OEMs, regulators, and innovators

### MALAYSIA'S BIGGEST SUSTAINABILITY EVENT

400+  
Attendees

20+  
Countries

Regional Airlines  
Attending

Speakers

Networking

## OBJECTIVE

To accelerate aviation decarbonisation in Asia-Pacific by advancing cleaner aircraft technologies and operations, scaling Sustainable Aviation Fuels (SAF) and other ICAO-aligned cleaner energies, and strengthening policies, implementation support, and financing for a resilient low-carbon aviation ecosystem.

## KEY FOCUS AREAS

- Aircraft Technology & Operations
- Clean Energy Transition
- Sustainable Aviation Fuel (SAF)
- Carbon Offsetting and Reduction Scheme for International Aviation (CORSIA)
- Strengthening policies, implementation support and financing.

## OUTCOME

- Establishing a shared vision for deep decarbonisation aligned with ICAO LTAG and policies such as the Malaysia Aviation Decarbonisation Blueprint.
- Accelerating supply chain development in aviation decarbonisation through stronger collaboration among governments, airlines, fuel producers, financiers, and technology providers.
- Strengthening industry readiness for CORSIA and global sustainability standards.
- Enabling new investment pipelines for low-carbon aviation technologies and clean energy infrastructure.
- Positioning Malaysia as a regional convenor and catalyst for sustainable aviation innovation and policy leadership.

## DELEGATE PASS

Delegate Pass (Non-Malaysian) ACT FOR SKY Members with 25% discount.

USD \$ 350 - 25% = USD 262.50 or RM 1,100.00

- Price per pax for 3-Day Symposium.
- The pass includes Lunch, Morning and Afternoon Tea
- The pass **includes ticket to *Gala Reception Dinner***

### USD 262.50

USD 350 - 25%

International Delegate or MNC Participants.

- Price per pax for 3-Day Symposium.
- The pass includes Lunch, Morning and Afternoon Tea
- The pass includes 1 ticket to Gala Reception Dinner

### USD 350

## PARTNERSHIP PACKAGE

PACKAGE	PLATINUM	GOLD	SILVER
Price	RM 60,000	RM 48,000	RM 39,000
Early Bird Special <b>15% Off</b> (Before 31 Dec 2025)	<b>RM 51,000</b>	<b>RM 40,800</b>	<b>RM 33,150</b>
<b>ACT FOR SKY</b> <b>Members with 25% discount</b>	<b>RM 45,000</b>	<b>RM 36,000</b>	<b>RM 29,250</b>
Space	6m × 3m	3m × 3m	3m × 3m
Furniture	4 Chairs, 2 Counters	2 Chairs, 1 Counter	2 Chairs, 1 Counter
Delegate Passes (No. of Pax)	10	7	5
Gala Dinner Slot (No. of Pax)	10	7	5
Panel Session Opportunity	Yes, subject to schedule confirmation	-	-
Event Recognition	Sponsor name mentioned in opening & closing	Sponsor name mentioned in opening & closing	-

### Pearl Sponsor

- Logo presence on NAICO Malaysia's social media.
- Mention on NAICO Malaysia's social media.
- 2 Delegate Passes
- 3 tickets to Gala Reception Dinner

### Price

**RM 10,000**

Terms & Conditions apply for all packages. Refer to NAICO Malaysia or NGen Energy for details

## PARTNERSHIP PACKAGE DETAILS

### Platinum

- **Size:** 6 meters x 3 meters with 4 Chairs, 2 Counters

### Gold

- **Size:** 3 meters x 3 meters with 2 Chairs, 1 Counter

### Silver

- **Size:** 3 meters x 3 meters with 2 Chairs, 1 Counter

- Company logo on all promotional materials (digital & printed).
- Dedicated feature on NAICO Malaysia's social media.
- Sponsor name mentioned in opening & closing remarks.

### Platinum

10x Delegate Passes

10x tickets to Gala Reception Dinner

### Gold

7x Delegate Passes

7x tickets to Gala Reception Dinner

### Silver

5x Delegate Passes

5x tickets to Gala Reception Dinner

### Pearl

2x Delegate Passes

3x tickets to Gala Reception Dinner

## PANEL INSIGHTS

MSAAS 2025 marked Malaysia's first international-level platform for in-depth discussions on sustainable aviation, gathering experts from across the aviation value chain.

## KEY HIGHLIGHTS

**Asia-Pacific's  
Role in Net Zero**

**Climate  
Modelling  
Demonstration**

**SAF Financing in  
APAC**

**Asia Pacific SAF  
Ecosystem**

**Impact of  
International  
Policies on APAC**

**Beyond  
Traditional  
Feedstocks**

**Building  
Malaysia's SAF  
Ecosystem**

Overall, the panels highlighted a shared sense of urgency and responsibility across the aviation community. Speakers from different backgrounds echoed the same message: real progress in sustainable aviation can only happen when we work together, innovate boldly, and support each other across borders and sectors. The conversations felt grounded and practical, reminding us that every breakthrough, whether in technology, policy, or new fuel solutions, depends on genuine collaboration and trust.

## MyAERO SUSTAINABLE AVIATION APAC SYMPOSIUM 2025

### SARAWAK FOCUS AND MOU EXCHANGE

State-Level Vision

MoU Exchange

Day 2 featured a special session highlighting Sarawak's emerging role in Malaysia's sustainable aviation landscape.

- State-Level Vision – The keynote highlighted Sarawak's strengths, including abundant biomass resources, progressive green policies, and alignment with national energy transition goals.
- MoU Exchange – A tripartite collaboration was formalised to strengthen the SAF supply chain through improved feedstock processing and refining capabilities.
- This session underscored Sarawak's commitment to sustainability and demonstrated Malaysia's whole-of-nation approach to building a robust green aviation ecosystem.
